

Dangers of FREE TO A GOOD HOME adverts

Pets that are offered free to a good home have ended up in the following situations.

Situations	Animals targeted
Bait to train fighting dogs	Dogs, cats
Live Snake food	Rats, kittens, rabbits
Sold as laboratory test animals	Dogs, cats
And the most common result...	
Unhappy pet in an unsuitable home	All pets

How to safely re-home your pet

- Charge a reasonable adoption fee for your pet, as an object given freely has no value
- Investigate all potential owners; ask basic questions to check their knowledge of animal care.
- Request a visit to the potential home. If they refuse, do not hand over your pet.

For a list of suitable questions to ask potential owners and other advice. Please rip a slip off the bottom of this sheet and visit the PIF Tails website.
